

APPLICATIONS

All Poultry Species:

Administer in Water or Feed:

7-10 ml per bird during growth period.

Water Line Administration:

Tank mix a stock solution of 50:50 WellBird and non-chlorinated water. Administer on day 2 of set 1 oz WellBird stock solution to 128 oz non-chlorinated water in line every 7 days.

For use in all livestock and poultry species

For Best Results:

- Ensure tank is free of residue, if using chlorinated water, let tank sit for 24 hrs (with lid removed) before mixing.
- Clean sprayer and nozzles thoroughly with water or soap (do not use anti-bacterial) mixture.

Note: Storage temp (50-90 F). Mix with water. Due to the wide variety of uses and variations in severity of areas to be treated, specific application rates and procedures are best determined on a case by case basis. For assistance, please call Asido. (316) 371-9009.

- Use only as directed on the label.
- Shake well before using.
- Keep out of the reach of children.
- Eye Contact: Flush with water/call physician.
- Skin Contact: Exposure may result in dry skin. Rinse/Apply lotion.
- Ingestion: May cause nausea or vomiting. Seek immediate medical attention.
- In case of spills disperse with water, treat like surfactant or soap spillage.
